

## TORQUE WRENCH PUMPS — AIR

RWP55

RWP55-4

pumps.

X1A1-PT

### CLASSIC SERIES AIR HYDRAULIC Torque Wrench Pump

- Use where air is the preferred source of power
- Powerful 3 hp motor starts under load
- External adjustable pressure regulator
- Retract side internal relief valve protects tool
- Use for double or single acting tools

### X1A1-PT

- Power Team PA55 Base pump unit
- Two-speed high performance pump
- Retract side internal relief valve protects tool
- 4-way 2-position solenoid valve standard
- Utilizes rugged electrical controls
- External adjustable pressure regulator
- Hand remote standard
- For single or double acting tools

# TORQUE WRENCH PUMPS – AIR

## Specifications and Dimensional Data

Pump Model	Oil Delivery per min.	Oil Reservoir gal.	Usable Oil in.3	Overall Width in.	Overall Length in.	Overall Height in.	Pump Weight w/Oil lbs.
RWP55	465 in <sup>3</sup> @ 100 psi 55in <sup>3</sup> @ 10,000 psi	2.5	590	16.55	9.5	19.83	98
RWP55-4 (4-tool manifold)	465 in <sup>3</sup> @ 100 psi 55in <sup>3</sup> @ 10,000 psi	2.5	590	16.55	9.5	19.83	98
X1A1-PT	465 in <sup>3</sup> @ 100 psi 55in <sup>3</sup> @ 10,000psi	2.5	590	10.75	18	18.75	75.4
